Allow or Block Browser Pop-up Windows

Most web browsers include a feature to block pop-up windows. While this may eliminate unwanted or bothersome pop-up windows, the feature sometimes can impede the functionality of legitimate or useful websites. Here are instructions to set your browser to allow or block pop-up windows.

Chrome

1. Click the Chrome menu (ellipses button on toolbar, top right).
2. Select Settings. (Preferences in Mac OS X)
3. In the Privacy & Security section select Site Settings.
4. In the Content section select Pop-ups and redirects.
5. Toggle the switch to set to Allow or Blocked for pop-ups

Firefox

1. Click Firefox menu icon (three horizontal bars in the upper right side of the browser toolbar) or go to Tools menu (top left)
2. Select Options (Windows) or Preferences (macOS).
3. In the left sidebar, click on Privacy & Security (or padlock icon)
4. Scroll to Permissions section and uncheck “Block pop-up” windows to allow pop-ups. (Or check the box to block pop-ups.)

EDGE
1. Open the Edge menu by clicking the ellipsis icon (...) in the upper right corner of your web browser, and then select Settings.
2. In the Settings pane (left side), select Cookies and site permissions. You may need to expand your window horizontally to view this pane (or click the three bars menu icon )
3. Scroll down (in the right side pane) to Site Permissions, to All Permissions section and select Pop-ups and redirects.
4. In the Pop-ups and redirects window, next to “Block (recommended)” toggle the switch off to allow Pop-ups (or on to block pop-ups).

SAFARI
1. From the Safari menu, choose Preferences... and click the Security tab.
2. Uncheck the Block pop-up windows option to allow pop-ups.
   (or Check the Block pop-up windows option if you want Safari to block all popup)
   Safari will then ask if you would really like to change the setting.
3. Click the OK button in order to change the setting.
4. Close the Preferences windows after you have finished changing settings.
5. Shut down and restart Safari.
