

Remote Access to Computer Lab Computers

Students can remotely log into computer labs from off-campus and use the software on these computers as if they were there in person. Available computer labs include specialty software computer labs and a subset of open lab/general use computers.

HOW TO REMOTE ACCESS CAMPUS COMPUTERS - PC/Chromebook/Mac

Additional Steps for MAC

➔ **START** by installing & running the Microsoft Remote Desktop Client application from URL below.

This only needs to be done one time (per device), prior to your first remote access.

(Windows PCs have the client already installed and start with Step # 1 below.)

MAC iTunes Store:

<https://apps.apple.com/us/app/microsoft-remote-desktop-10/id1295203466?mt=12>

After downloading the client, go to Step # 1 below.

1. From a browser, go to your campus remote access landing page
